**GAMING**

## CREATIVITY IN GAME DESIGN

Innovation is a prerequisite when it comes to game development, starting with brain-storming, developing and shaping the idea, creating the story board, creativity in design and graphics, easy user experience then coding, testing and release. With a certain amount of repetition, it is an exciting journey.

### SOME OF OUR GAMES :

#### MONSTER HUNTER FAMILY

Stunning graphics, endless pleasure, different worlds and amazing story, Monster Hunter Family is where all the members are professional hunters running after different monsters.

#### FISH CANNON

Children friendly, actually they were our focus in this game, great colors, easy idea, exciting. A MUST HAVE GAME!

#### FALLING MONKEYS

It is a simple, easy and a funny game that was designed for you to enjoy it whenever, wherever you are. The concept is simple; Point your Monkeys and crush the fruits.
